RE: Testimonial

Dear Ethan,

Pursuant to my conversation with your father last week, I want to provide you with the following testimonial based on the work you did on behalf of Advance Turning and Manufacturing.

I want to recognize Ethan Resnick for his initiative and effort. Without being asked, Ethan took it upon himself to review Advance Turning's website and identified some serious security concerns. Ethan sent me a detailed message explaining the risks and offered advice on how to help.

What stood out was Ethan's tenacity — he did not just notice an issue and move on. He took the time to investigate, lay out the details clearly, and offer help. That kind of follow-through is sometimes rare and speaks to both his interest and his commitment to doing things the right way.

I appreciated his directness, professionalism, and willingness to step up when he saw a problem worth addressing.

Best Regards,

A handwritten signature in blue ink that reads "John Rappleye". The signature is fluid and cursive, with the first name being particularly prominent.
